PROFESSIONAL SUMMARY

Frontend Engineer specializing in React.js and JavaScript, with strong expertise in Next.js, TypeScript, and modern state management. Focused on building responsive, high-performance web applications with robust API integrations, authentication, and database architecture. Proven track record of developing production-ready platforms including real-time movie discovery tools and AI-driven analysis utilities.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS

Backend & APIs: Node.js, REST APIs

Database & Auth: Supabase

Tools: Git, GitHub, Vercel

PROJECTS

CineNexus — Movie Discovery & Watchlist Platform

Live | [GitHub](#) | [React.js](#), [JavaScript](#), [TMDB API](#), [Supabase](#)

- Engineered a feature-rich movie discovery platform utilizing the TMDB API to serve detailed data, ratings, and casting details for thousands of titles.
- Implemented secure Supabase authentication and database integration to persist user watchlists, ensuring seamless cross-device data synchronization.
- Integrated external OTT and ticketing redirects to streamline user conversion paths for streaming and theater options.

AI Resume Reviewer — AI-Powered Resume Analysis Platform

Live | [GitHub](#) | [React.js](#), [JavaScript](#), [AI Integration](#), [API Integration](#)

- Developed a responsive web application leveraging AI APIs to evaluate resumes, providing users with structured feedback and actionable optimization tips.
- Designed an intuitive, clean interface for seamless resume submission and immediate display of multi-parameter analytical insights.

Formula 1 Racing Dashboard — Interactive F1 Data Platform

Live | [GitHub](#) | [React.js](#), [JavaScript](#), [API Integration](#), [Data Visualization](#)

- Built a dynamic Formula 1 data analytics dashboard delivering real-time driver standings, race schedules, and deep-dive team profiles.
- Optimized component reusability and asynchronous data fetching to present fast, clean visualization layouts across mobile and desktop viewports.

CERTIFICATIONS & ACHIEVEMENTS

No certifications or achievements provided.

EDUCATION

B.Tech in Computer Science | Bikaner Technical University (BTU), India | Expected Graduation: 2027

Relevant focus: Web Development, Data Structures & Algorithms, Database Systems, Software Engineering
